### Director's Corner

As the air grows crisper and cooler, I can't help but hear the sound of a distant school bell. Is it just me, or do you hear it, too?

Staff across our library system are looking forward to the school year and the work we do to support students and teachers – whether that is preschool, public, digital, college, or homeschooled students.

BUT is learning just for students? Here at the library, we don't think so.

Henry Ford once said, "Anyone who stops learning is old, whether at twenty or eighty. Anyone who keeps learning stays young. The greatest thing in life is to keep your mind young."

Like Henry Ford, we believe there is no age limit when it comes to learning. We know YOUR County Library is the perfect place for lifelong learning.

I encourage you to browse the program and class offerings in this fall's Between the Lines. There are educational and recreational offerings for all ages and interests. Come Create it. Live it. @ your library.

*Sincerely,  
Michelle McMorrow Ramsell*

# Voices of Diversity

Many of our library programs provide an opportunity for us to join like-minded people as we explore something new. This three-part series provides an opportunity for us to join a diverse group of people as we explore our unique heritage, celebrate what makes us different, and discover what we have in common. We invite you to join us at our Main library for the entire series or the programs of interest to you.

### Family Recipes

**Main Library**  
Wednesday, October 18th at 6:30PM

Most families have them – those beloved family recipes that have been passed down for generations and often provide a window into our family's unique heritage. This program will celebrate those recipes and the stories tied to them. Participants are invited to make and bring samples of a favorite family recipe along with copies of the recipe to share. We'll gather to sample the dishes and to share around the table the unique memories and family stories tied to the dish we brought.

Registration begins 8/21.

### DNA Tested: An Introduction to Autosomal DNA Testing

**Main Library**  
Monday, October 23rd at 6:30PM

Many of us think we know where our family roots lead, but have you ever thought about testing what you believe to be true with your DNA? Mary Jamba, a trustee of the Ohio Genealogical Society, will be here to provide an overview of what you get when you buy a saliva collection kit, including a comparison of three main companies who offer them. Mary has been a past president of the Greater Cleveland Genealogical Society and the DNA User Group Leader at the Computer Assisted Genealogy Group.

Registration begins 8/21.

### I AM: Voices of Diversity Panel Discussion

**Main Library**  
Thursday, November 2nd at 6:00PM

We each have personal experiences that make us unique. Have you ever wanted to step into the shoes of another to learn more about their experience? This community discussion will provide an opportunity to hear from panelists whose experiences may be different from our own. Our moderators, Dr. Nicole Willey and Dr. Christopher Roman, will have each panelist share their personal experience with the audience. The program will be followed by a question and answer session. We invite you to join an open, honest conversation with our panelists this fall about race, religion, and immigration in our community and the country abroad. Confirmed speakers will include Olga Bravo, an immigrant, and Frieda Ibarra, a former undocumented immigrant. Additional panelists will be announced closer to the date.

Registration begins 8/21.

The book tells the story of how ten-year-old Auggie Pullman, who was born with extreme facial abnormalities and was not expected to survive, goes from being home-schooled to entering fifth grade at a private middle school in Manhattan, which entails enduring the taunting and fear of his classmates as he struggles to be seen as just another student.
